MESSAGE FROM

Mr. Sutin Klungsang

Minister of Defence
The Kingdom of Thailand

Defense & Security 2023 is organized with the full support of the Ministry of Defence, the Kingdom of Thailand, and the Royal Thai Armed Forces. Against the backdrop of present day's challenges that are becoming increasingly multi-dimensional and trans-national in nature, it is essential for armed forces to continue updating their knowledge base in order to keep abreast of the ever evolving cutting-edge technologies as well as adapting their personnel's capability to conform to changes and be ready for immediate action on any given mission. The exhibition will provide an outstanding opportunity for personnel from the defence sector as well as public disaster relief sector to witness the latest technologies in defence, security, and disaster relief.

The Ministry of Defence is fully aware that the exhibition is not only important for the personnel operating in security field but also for all security-related agencies. Moreover, Defense & Security 2023 will be a significant platform to promulgate Thailand's defence industry and internal security development progress to international community. The objective is to reduce the country's dependence on import, promote technology transfer and partnership, research and development, and strengthen national security.

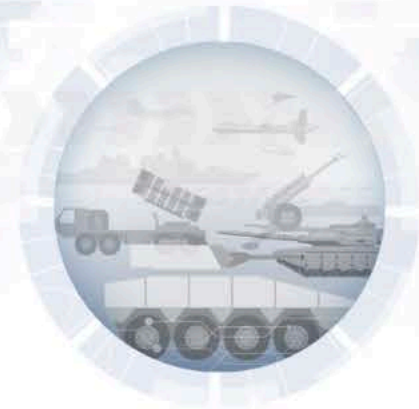

The exhibition has a rich history of partnership with multinational corporations, manufacturers, and delegations. Defense & Security 2023 is expected to welcome official delegations led by Ministers of Defence, Chiefs of Defence Forces, Chiefs of Army, Chiefs of Navy, Chiefs of Air Force, Chiefs of Police, security agencies and other high-ranking officials from Thailand, ASEAN, and around the world. This will also provide our military personnel with a great opportunity to establish and expand their network, with acquaintances and associates to further enhance good relations.

On behalf of the Ministry of Defence, I would like to sincerely congratulate the organisers and organising committees for arranging this important event for our armed forces. I would also like to take this opportunity to express a great appreciation to all official delegations, exhibitors, and visitors for their support in making Defense & Security 2023 one of the most important tri-service and internal security exhibitions of the year.

Mr. Sutin Klungsang
Minister of Defence
The Kingdom of Thailand

**6-9 November
2023**

IMPACT, Muang Thong Thani, THAILAND

MESSAGE FROM

General Sanitchanog Sangkachantra

Permanent Secretary for Defence

Chairman of Defense & Security 2023 Organising Committee

While keeping abreast of the ongoing changes of global situations which are dynamic, rapid, and complicated by nature, national security and stability come as common priorities for every country. Changes of contexts for global, regional, and national security have established the fact that no country is capable of confronting the challenges alone. It is through fostering close cooperation and partnership can we only succeed and bring about transnational

exchanges and interactions. This is to ensure that such issues will be handled with concrete, efficient, and effective approaches for mutual national interests in the years to come.

Defense & Security 2023 is organised under the concept "The Power of Partnership," which is based on mutual understanding, trust and the need for cooperation in the defence industry. The event is one of the mechanisms that enhances cooperation between users and manufacturers in the defence industry and provides opportunities for the Ministry of Defence, related official agencies, as well as the general public to expand their views on security and armaments, along with building their network of cooperation with participating entrepreneurs in the future.

On behalf of the Office of the Permanent Secretary for Defence, and as the Chairman of the Defense & Security 2023 Organising Committee, I would like to extend my gratitude to all members of the Coordinating Committee, Sub-committees of various functions, GML Exhibition (Thailand), the exhibition organiser with series of remarkable success, and all related parties that helped make this exhibition a success.

General Sanitchanog Sangkachantra

Permanent Secretary for Defence

Chairman of Defense & Security 2023 Organising Committee

MESSAGE FROM

General Songwit Noonpackdee

Chief of Defence Forces
Royal Thai Armed Forces

The Royal Thai Armed Forces has continually been engaging in development of our capabilities. We have attached importance to core values of "Duty and People First, Modernization, and Support to Ministry of Defence and Government Efforts".

With these endeavours in mind, together with our primary mission of national defence, we aim to be more adaptive, compact and efficient through development of people, systems, and equipment by sourcing and implementing the most appropriate technique, tools and technology available in the industry for the Armed Forces.

The evolving security situation in the world today also requires us to work seamlessly, rapidly, with cross-domain capabilities, not only within the national security structure involving joint and armed service components and other domestic security sectors, but also with our partners and allies at bilateral and multilateral levels. We therefore need to enhance our interoperability and joint warfighting functions, as well as give more focus to relatively new security dimensions such as cyber and space.

Defense & Security will provide an exceptional opportunity for our military strategists through to our operators working on the ground, in the sea, and air to keep abreast with the industry advancements through product display, seminars, and direct discussion with manufacturers, experts, and academicians. The Royal Thai Armed Forces is proud to be a part of the success of Defense and & Security 2023.

On behalf of the Royal Thai Armed Forces, I would like to extend our sincere appreciation to all exhibitors and visitors for your support and wish you every success in your participation at this event.

General Songwit Noonpackdee
Chief of Defence Forces
Royal Thai Armed Forces

6-9 November
2023

IMPACT , Muang Thong Thani, THAILAND

MESSAGE FROM

General CharoENCHAI HINTHAO

Chief of Army
The Royal Thai Army

In a modern world where change has affected the national security and national interest in multiple forms of threats. The Royal Thai Army is forced to encounter with these new challenges and to improve military capabilities in accordance with the changing environment in order to be ready for all given missions. Most importantly, the Royal Thai Army's core mission is to protect national sovereignty, to maintain national stability and to uphold monarchy

institution; along with providing assistance to the people in time of need and driving forward the national sustainability.

"Defense and Security 2023" will be a great opportunity to explore technological advancement, military innovation and disaster relief equipment from the leading manufacturers around the world. The exhibition will be in respond to the demand of high capability military equipment in promoting effective mission operations. Moreover, this event will provide an opportunity for connection and network, for exchanging of ideas and knowledge which will be beneficial to all participants. With no exception, the Royal Thai Army will obtain the opportunity to improve its capability and combat readiness to ensure the national security.

On behalf of the Royal Thai Army, I humbly convey my best wishes to all involved parties, and hope that the Defense and Security 2023 will be a success. Wishing this exhibition, a center for defense relation and military technology arena for us all.

CharoENCHAI HINTHAO

General CharoENCHAI HINTHAO

Chief of Army
The Royal Thai Army

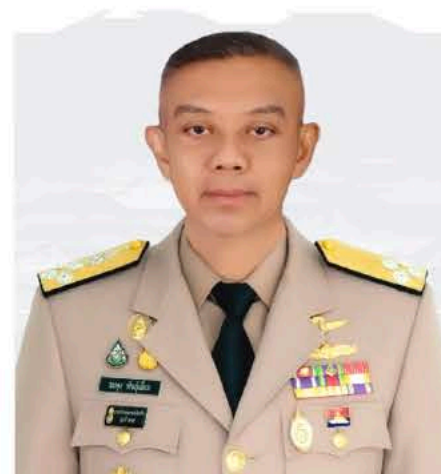

MESSAGE FROM

Admiral Adoong Pan-iam

Commander-in-Chief
The Royal Thai Navy

The core mission of the Royal Thai Navy is to defend the sovereignty of the nation and maintain regional maritime security. In the past years, the Royal Thai Navy has cooperated with allied Navies by continuously deploying its ships and personnel to join in operations pertaining to maritime security.

The Kingdom of Thailand is located in the heart of ASEAN, which is a region full of diversity and a notable hub for trade and industry. The Royal Thai Navy, therefore, has to sustain and acquire state-of-the-art equipment, materiel and technologies that are suitable for its missions. In recent years, the Royal Thai Navy has improved its equipment along with the development of its personnel in order to keep pace with the current technology. The Defense and Security is an important military exhibition, which provides the Royal Thai Navy with access and updates as well as performance evaluations on the latest equipment and technologies from leading manufacturers in the ship and marine industry worldwide. The capabilities of these equipment and technologies will help promote the readiness of the Royal Thai Navy in carrying out its missions in the years to come.

On behalf of the Royal Thai Navy, I am pleased to render full support and also grateful for the continuous success of the Defense and Security exhibition. I would like to wish all manufacturers, entrepreneurs, and visitors all the success.

Admiral Adoong Pan-iam
Commander-in-Chief
The Royal Thai Navy

MESSAGE FROM

Air Chief Marshal Punpakdee Pattanakul

Commander-in-Chief
The Royal Thai Air Force

To secure Thai sovereignty and aerial national interests under the current and potential threats, the Royal Thai Air Force is obliged to gain readiness of its personnel, materiel, and support systems to handle all kinds of threats along the path of rapid technological breakthrough.

The Royal Thai Air Force gives priority to improving air power capability by upgrading the long-service aircraft and planning for the procurement of fighters and attackers to replace the gradually decommissioned ones in compliance with the logistics constraints. By this way, the Royal Thai Air Force will be able to keep up with technology and optimize its capacity in protecting sovereignty and national interests.

The Defense & Security 2023 will definitely yield benefits to the Royal Thai Air Force in terms of useful information and insights related to the state-of-the-art defense technology for our personnel and jointly build up connections in defense industrial development that will consequently cause enormous impact on the enhancement of the Royal Thai Air Force.

On behalf of the Royal Thai Air Force, I wish all participants and the organizing committee of the Defense & Security 2023 success and prosperity.

Air Chief Marshal Punpakdee Pattanakul

Commander-in-Chief
The Royal Thai Air Force

MESSAGE FROM

Mr. Chiruit Isarangkun Na Ayuthaya

President

Thailand Convention and Exhibition Bureau (TCEB)

The 11th edition of Defense and Security Show 2023 marks two-decade long presence of this biennial show and testifies to its high performance in propelling the elevation of the industry. Thailand Convention and Exhibition Bureau or TCEB would like to extend our sincere congratulation to the Ministry of Defense and GML Exhibition (Thailand) for their success and we take pride in being one of the supporters of the show.

As a government agency tasked with the mission to support, promote and develop Thailand's MICE industry, TCEB has been championing MICE as a platform to advance the industry and the economy. With the recent government's policy statement that identifies trade show as a booster of the economy, the role of MICE will carry more weight for the development of the country.

While peace is preferred, the current rise in geopolitical tension has led various countries to increase defense budget. Defense and Security Show is, thus, assuming an important role, not only for the industry itself, but also the security and economy as a whole.

Meanwhile, it is TCEB's policy to use MICE as a tool to drive the 12 strategic industries of Thailand. Defense industry is, thus, no exception. With the transformative power of technology running at a rapid-rate in business landscape, TCEB believes MICE serves as a stage where entrepreneurs and product developers can interact to reap ideas, insights and inspiration to keep pace or move ahead of the technological advancement.

In this regard, TCEB wishes all related parties in Defense and Security Show 2023 a success and create another chapter of high-profiled performance of the show and shape the defense industry as a higher value-added sector.

Importantly, TCEB would like to wish you all a pleasant stay in Thailand.

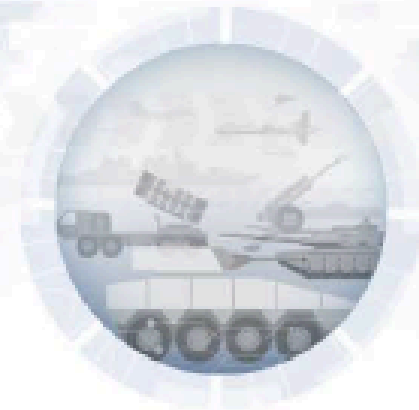

Mr. Chiruit Isarangkun Na Ayuthaya

President

Thailand Convention and Exhibition Bureau (TCEB)

Welcome Message MESSAGE FROM

Mr. Manu Leopaibote

Chairman

GML Exhibition (Thailand) Co., Ltd.

Defense & Security is fully supported by the Thai Ministry of Defence and Armed Forces in the region. It is now a globally recognized success and certainly one of the most important tri-service military exhibitions in the region. Defense & Security 2023 is expected to host over 200 official delegations, including Ministers of Defence from

around the world, especially from ASEAN, who are in attendance along with more than 500 world leading defence and security companies. In this edition, there are also 25 National Pavilions from Europe, South Africa, Asia, ASEAN, the USA, and Thailand plus 20 major international seminars, conferences, presentations and demonstrations presented by the world's top experts and companies.

Defense & Security is well known and continues to be a top venue for companies and professionals in the industry to embark on business opportunities in Thailand and the region. Throughout the show dates, there are several networking events including G2G and G2B Meetings, a networking reception, launches, and seminars which provide excellent opportunities for defense and internal security manufacturers to establish networks and contacts.

Finally, on behalf of GML Exhibition (Thailand) Co., Ltd., the show organizer, I wish you the best of success at this important regional defence and security show. I would also like to thank the Ministry of Defence, Armed Forces, Military Organizing Committees, Delegations, Speakers, Sponsors, Associates, and most of all our Exhibitors for their continuing support and commitment of Defense & Security 2023.

Mr. Manu Leopaibote

Chairman

GML Exhibition (Thailand) Co., Ltd.

MESSAGE FROM

Mr. M. Gandhi

Managing Director

GML Exhibition (Thailand) Co., Ltd.

For many years, Defense & Security has successfully employed the concept of 'The Power of Partnership'. It has built on relations that encourage developing partnerships at all levels. The show has utilized its rich history of partnering with multinational corporations and manufacturers in the defense and internal security industry and has been providing outstanding opportunities for exhibitors to network, exchange knowledge, do business and initiate long-term associations based on mutual understanding, trust, and the needs of Armed Forces in the region and related government agencies. Therefore, Defense & Security 2023 is the ideal business platform and central business meeting point to build the relations between defense and security manufacturers and professionals in the industry from around the world.

Thanks to the Thai Ministry of Defense, the Ministry has given its full support to Defense & Security since the first modest show in 2003. Today, Defense & Security is celebrating its 11th Edition and has been raised to be one of the most important tri-service defense & security events in the region. The show fully deserves its position as the region's leading Tri-Service Defense & Security Exhibition, Conference, and Networking Event.

On behalf of the show organizer, I would like to take this opportunity to extend deepest thanks to the Ministry of Defense, all Royal Thai Armed Forces, organizing committees and our valued exhibitors for their support and making this year's show one of the best shows ever.

Mr. M. Gandhi

Managing Director

GML Exhibition (Thailand) Co., Ltd.

Admission for Visitors

Free admission for professionals and trade business visitors. The Organiser reserve the right to refuse admission or to remove any person without giving a reason. This applies also to the build up and dismantling periods.

Exhibitors are advised to nominate the name of their trade/prospective customers to the Organiser to send E-Invitation Cards. Trade visitors will be receiving full information about the show as well as a show directory. Trade visitors will be required to pre-register before 5 November 2023 by emailing to the Organiser completed registration form in the E-Invitation Cards so as to save valuable time upon arrival at the exhibition centre. Nomination of trade buyers can be done through the E-invitation Card (Form 4). Pre-registered trade visitors may collect their badges at the pre-registered trade visitors' counter upon their arrival on site.

Please note that this is a trade exhibition and are strictly for distribution to members of the trade and business only, to the general public, Children under the age of 18 years are NOT allow admission, either as a visitor or an exhibitor.

Exhibitor Badges and Registration

Exhibitor badges are only to be used by exhibitors and their staff manning booths during the exhibition period. For security reasons, exhibitors and their personnel are requested to wear their badges at all times when in the exhibition hall.

Exhibitor badges will be issued to all exhibitors and staff manning their booths, in accordance with the list of names given on the Exhibitor Name Badge Form (Form 11).

Exhibitors are requested to make their First Stop at the Exhibitor Registration Counter when they arrive on site, to collect their badges.

Exhibitor Registration: 4-5 November 2023 (Saturday - Sunday): 08.30 – 18.00 Hrs.

Contractor Badges

For the purposes of stand construction and moving of exhibits, badges will be issued by the Organiser approved contractors and their workmen to enter the exhibition hall during the build up and dismantling period only. A limited number of stand-by badges may be issued should a contractor have a valid reason to be present during the exhibition period (e.g. maintenance, remedial purposes, etc.). Please contact the Organisers' operations personnel for the issue of badges.

For security reasons, contractors and their workmen are to wear their badges at all times when in the exhibition hall.

Catering

A variety of catering is readily available in the exhibition center. Please note that all catering on your stand must be ordered through the Center's Food & Beverage Department, IMPACT Exhibition Center only. Please order via FORM 27 "Booth Catering" or contact as below contact detail

Abeking & Rasmussen (A&R) is a pioneering shipyard in Germany with high reputation for quality and innovation for naval and commercial vessels since 1907. Today the company delivers to a critical and sophisticated clientele all over the world. The modern, compact shipyard is independent of weather, with sheds made for ships of over 125m length, which can be launched resp. taken ashore via synchrolift. A&R is known for design, construction and building of SWATH@A&R/ SWASH@A&R, offshore patrol vessels, mine countermeasure vessels and authority craft. The revolutionary SWATH@A&R/ SWASH@A&R concept presents a superior alternative to conventional hullforms due to its unique seakeeping and manoeuvring in rough sea for numerous applications.

Established in 1997, Aeronautics is a world leader in designing, developing, and manufacturing Unmanned Aerial Systems (UAS) for the global defense & HLS markets. Backed by continuous research and development and proven excellent performance and operability, Aeronautics' broad product portfolio includes the expertise of its subsidiaries. It offers solutions for a wide range of Intelligence, Surveillance, and Reconnaissance (ISR) missions that lead the segment with cutting-edge systems for the modern battlefield. Having been acquired by Rafael Advanced Defense Systems, Aeronautics utilizes the technological synergy between the two companies – Rafael's advanced air, land, and naval defense capabilities and Aeronautics' proven technologies in the Unmanned Aerial Systems and solutions – to strengthen its position as a leading unmanned and autonomous solutions integrator.

Aero Vodochody AEROSPACE a.s. is the largest aviation manufacturer in the Czech Republic and one of the oldest Aerospace companies in the World.

With over a century of experience in aircraft design and production, we have mastered the segment of low-wing sub-sonic aircraft. Aero aircraft are renowned for their excellent flight characteristics, durability and reliability reaching in service life of up to 50 years from delivery.

The L-39NG is the latest and most modern subsonic jet aircraft, fully capable of fulfilling basic and advanced training needs, as well as a wide range of light attack missions of air forces around the world. Modern technologies and preparedness to integrate a wide range of sensors and payloads make the L-39NG one of the most versatile, cost-effective platforms available on the market today.

We are a company that aims to increase the completeness of our customers' products by improving performance through enhanced user convenience, and efficient operation and maintenance based on these principles.

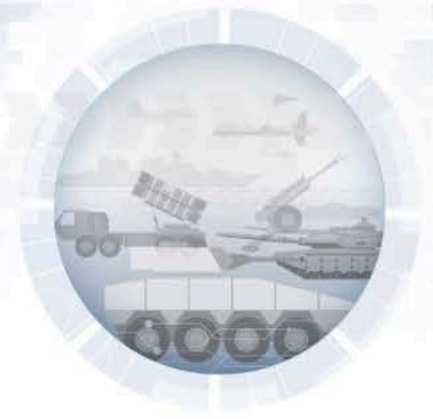

CHANGMIN Techtron has expanded its business from tent manufacturing to include inorganic fiber and polymer products.

We are currently preparing to commercialize HeatFlex, a surface-heating material made from metal fibers, which is a promising material technology for the future.

CHANGMIN Techron will always strive to be a company that produces valuable products essential for human activities, and do our best to achieve this goal

บริษัท ซีเจแมนูแฟคเจอร์ จำกัด
CJ MANUFACTURING CO., LTD.

In 1983, Mr. Huisong Uphanwan (Founder) started the business with a ball joint garage for (a commercial building) sedans, pick-up trucks, vans and other vehicles. With his expertise in automotive suspension, he could fix any problems for customers well. Subsequently, he expanded his business to another garage which was still trusted by many customers. Word of mouth from customers who used to use the service had spread widely until his garage was known as 'CHOWJUNGLOOKMARK'.

In 2003, the first machining factory was built, called Five Star Autoparts Co., Ltd. Followed with the first assembling factory called Chowjung Suspension Industry Assembling Manufactory in 2013. The two companies combined in 2017 with the factory name- CJ Manufacturing Co. Ltd. which is one building operation that starts from designing, production, assembly, until delivery.

CJM was certified by ISO 9001 since 2009 until now, IATF 16949 since 2014 until now, and AS 9100 since 2022.

Colt's Manufacturing Company has been an American pioneer of the firearms industry since 1836 -- Colt has provided the United States & other elite military and law enforcement organizations throughout the globe with some of the finest battlefield weapon systems ever created. Colt weapons are designed and built with an emphasis on combat effectiveness, simplicity of operations, maximum interchangeability of parts, and ease of maintenance. As a result, our weapons are extremely durable, with high-performing systems and unusually low life cycle maintenance costs. All of this makes Colt weapons the ideal choice for broad deployment among any military or law enforcement unit. Since 1836, Colt has stood shoulder to shoulder with the United States military and continues to evolve to safeguard today's warfighters.

GICAT, a trade association founded in 1978, has nearly 435 members, including major groups, ETIs, SMEs and start-ups. Its members cover a broad spectrum of industrial, research, service and consultancy activities for national and international military and civilian components involved in land and air-land security and/or defence.

GICAT represents the interests of its members around four objectives: to create a favourable environment for exchanges between manufacturers, to organise dialogue with public authorities, to promote the development of its members in France and internationally and to enhance the sector's know-how and image.

Its international influence is based on the EUROSATORY trade shows in France and EXPODEDENSA in Colombia organised by its subsidiary COGES Events, as well as on around ten French pavilions that it federates each year at defence and/or security trade shows abroad.

King Mongkut's University of Technology Thonburi (KMUTT) has unveiled the establishment of a Defense Lab, dedicated to bolstering the advancement of the nation's defense industry. This visionary lab aspires to emerge as a globally recognized research hub for cutting-edge defense technology. Its primary mission revolves around pioneering groundbreaking research in pivotal defense domains, encompassing cybersecurity, defense systems, and advanced equipment.

The lab's strategic objective extends beyond research confines. It seeks to synergize with industry stalwarts and governmental entities, fostering collaborative partnerships that can seamlessly translate research breakthroughs into tangible solutions. By doing so, it aims to amplify the nation's defense capabilities, effecting a positive transformation.

Positioned at the intersection of innovation and collaboration, KMUTT's Defense Lab emerges as a potent force poised to redefine Thailand's defense research landscape.

NSBT Japan
Network for Security Business and Technology

NSBT Japan is the first portal site in Japan that is dedicated to the defense industry. Through NSBT Japan, we aim to expand and develop business networks. Japanese Ministry of Defense, Self-Defense Forces, National Police Agency, and Japanese/international companies involved in the defense industry are registered with us. You can promote your company information to these stakeholders. The Japanese government is planning to allocate its biggest five-year defense budget from fiscal year 2023 - 2027 to top 30 trillion yen (\$264 billion) for the first time. Now is your chance to tap into the Japanese market! We also provide the latest domestic and international news, expert opinions, and video contents. Create the future of the defense and security business with NSBT Japan.

Operator XR was formed by a passionate group of special forces soldiers and specialized engineers with a deep understanding of operational environments and complexities.

Operator XR systems enable Military personnel and Law Enforcement Officers to train operational tactics and procedures within a portable, virtual reality environment.

Complimenting existing training methods, the virtual reality system allows end users to train more often, leading to increased preparedness across a broad range of scenarios centred on de-escalation tactics, use of force decision making, and operational procedures.

The system has been developed in house from the ground up, using the latest innovations in immersive technology.

A little over three years ago, Mr. Vivatvong Vichit-Vadakan (our CEO) became very interested in drones and its application in science and engineering such that it became his new found personal passion. So he decided to establish a company called Sky Visual Imaging Venture (SKYVIV) in order to specialize in the field of using drones to do three things:

- (1) Perform very high precision aerial surveying for creating land maps.
- (2) Precision Agriculture, crop yield enhancement, and yield prediction using the analysis of multi-spectral images taken from drones.
- (3) High-resolution structural inspections of plants, factories, and infrastructures (dams, bridges, silos, gas flue stacks) using drones. (at the moment, we're using ELIOS and DJIM210RTK, M300RTK mounted with Zenmuse Z30 and Zenmuse XT2 for inspection*)

* Use for solar rooftop inspection also

Since 2008, Su-optics has grown into a specialized manufacturer of sights for civilian use. We are standing shoulder to shoulder with the world's leading companies by exporting superior Su-optics products to the United States and Europe.

But Su-optics has been asked many times, "Why don't you manufacture military sights?" There is only one reason. Since the military sight is a key equipment that guarantees mission completion

between operations and life, we needed time to accumulate technical skills that will ensure the best conditions for mission performance for users of Su-optics sight.

The ACTUS brand, which is a collection of Su-optics' decades of know-how and technology, was born as a brand specializing in 'military sights and optical' instruments. Based on world-class technology and know-how, we will strive to develop and manufacture optical sights for military use that will implement missions successfully.

TİSAS Trabzon Silah Sanayi moving with the vision to “be the pioneer company” since its establishment, keeps on leaving permanent marks in its industry.

Our company with a background of almost a quarter-century, and a competitive and dynamic structure has become a company which is always followed in its industry thanks to its “customer-oriented” studies carried out in the defence industry. Its investments, technological infrastructure and experienced staff have made TİSAŞ unescapable with its customer satisfaction level without compromising on quality.

The honour of meeting the pistol needs of the National Armed Forces has motivated us to greater targets and as a result of export studies already started we are now exporting 80 percent of our throughput. With such a route towards which we are canalized, we aim to communicate the “MADE IN TURKEY” phenomenon throughout the world, especially in the defence industry.

JSC "West Kazakhstan Machine-Building Company" is located in the West Kazakhstan region. Uralsk is an enterprise for the development and production of high-tech equipment for the production and transportation of oil and gas, energy equipment, metal structures and other engineering products, as well as the production of the NSV 12.7 "UTYOS" heavy machine gun. In April 2003, the Metallist plant was reorganized into West Kazakhstan Machine-Building Company JSC. The plant has retained and continues to produce the previously mastered range of products. Currently, it continues and fruitfully works to expand the possibility of using its products; various options for installing the NSV - 12.7 machine gun on ships, on armored vehicles, on cars, on controlled modules have been developed and manufactured. In addition to small arms, the plant is working to expand the range of military products produced: in 2009, the assembly production of 30mm ammunition for the 2A42 gun was mastered.

DEFENCE & Maritime Review

India's Leading Defence, Aerospace & Naval News Magazine

www.chanakyaerospace defence.com

MEDIA PARTNER

**2023- 54th
Year of Chanakya
49th Year
of Monthly Publication**

Chanakya Aerospace, Defence & Maritime Review, India's oldest and foremost International Defence & Aerospace News Monthly Review, publishing the Defence Review since 1969, with 2023 being its **54th Year**.

Chanakya Aerospace, Defence & Maritime Review, entered its 49th Year of Monthly Publication since 1975, covering the entire spectrum of Aerospace, Civil & Military Aviation, Defence, Maritime\ Naval and Security fields, with emphasis on strategic defence issues of national interest and reviewing global systems and equipment updates with news and technical analysis of interest to Indian Defence Forces & Industry.

Chanakya Aerospace, Defence & Maritime Review is the most widely circulated international specialised news publication of its type in India, being the Only Tri-Services News Monthly for 48 Years, with an international, Asian, Gulf and vast Indian circulation, spanning 70 countries. Chanakya has a tremendous readership amongst key decision makers in India, Ministry of Defence, DMA, DRDO, DP, Acquisition Wings, Indian Air Force, Indian Army, Indian Navy, Coast Guard, Central Security Forces, etc. and within the Indian Defence and Civil industry. Chanakya is the Media Partner of leading Global Air, Defence & Naval Shows.

Critical Marketplace Information and Essential Industry News

DRA provides critical marketplace information and industry news essential to defence professionals, and their international partners.

DRA Platform: Website | Weekly Bulletin | Sponsored Content
Defencereviewasia.com

APDR provides timely information and analysis relevant to current and future Australian and regional defence. Its comprehensive coverage of the Asia-Pacific military balance, current and future ADF acquisition programmes, new military technologies and warfighting materiel, is essential reading for defence and industry leaders.

APDR Platform: Print & E-Magazine | Website | Daily News Bulletin | Sponsored Content

@gbp.com.sg**

No One Knows the Asia Pacific Region Like We Do

Gbp.com.sg provides readers with real time, industry-specific, up-to-date news and views from around the world. Our areas of focus are the rapidly expanding Asia Pacific and Middle East regions. Besides the quality content provided by a team of experienced reporters, gbp.com.sg also provides a platform for industry experts to voice their opinion on topical issues, through interviews and guest columns.

Newsletters

Three weekly newsletters – one each for Commercial Aviation, Defence & Security, and Maintenance, Repair, Overhaul (MRO), provide readers a panoramic view of the major happenings in the sectors.

Digital Daily News, based on news generated by reporters from airshows and industry events, is sent out on show days to a vast database that includes industry leaders and decision makers

Unparalleled Reach

GBP.COM.SG OFFERS ADVERTISERS

Opportunities for full-length ad visuals to showcase campaigns in one of the most widely read industry publications.

Ad opportunities on a tenancy basis across both the homepage and three channel homepages.

A chance to promote products and services through focused ad campaigns in weekly newsletters and Digital Daily News.
