MESSAGE FROM

General Nattaphon Narkphanit (Ret.)
Ministry of Defence of the Kingdom of Thailand

The Defense & Security Exhibition has been organized in Thailand for over two decades. It has heightened and become a global recognized platform for defence and internal security leaders to meet and exchange views with decision-makers from across the globe.

The Ministry of Defence has constantly supported the exhibition with commitment to enhancing capabilities of defence industry and national security through the development of personnel, equipment, technologies, as well as promoting research and innovation in defence science and technology. These efforts are vital to ensuring that Thailand advances toward developing a strong and competitive national defence industry, thereby, reducing reliance on imports and enhancing self-sufficiency.

The Defense & Security Exhibition is certainly an ideal platform to achieve these aforementioned objectives. Furthermore, it is an honor for us to welcome and

receive our allied nations including the Ministers of Defence, Chief of Defence Forces and Commanders from ASEAN member states and over 35 countries to connect, enhance cooperation and exchange insightful views.

On behalf of the Ministry of Defence, I am honored and proud to be part of this important event and I also would like to express my sincere appreciation to all distinguished delegates, exhibitors, visitors, members of the organizing committee and organizers for true dedication and profound contribution to this successful event.

General Nattaphon Narkphanit (Ret.)
Minister of Defence of the Kingdom of Thailand

**10-13
Nov 2025**

IMPACT, Muang Thong Thani, THAILAND

MESSAGE FROM

General Tharapong Malakham

Permanent Secretary for Defence

Chairman of Defense & Security 2025 Organising Committee

Amid the rapid, dynamic, and increasingly complex changes in the global situation, national security and stability remain matters of utmost importance for every country. In particular, as the global, regional, and domestic security landscape continues to evolve, no single nation can effectively address these challenges alone. Close cooperation and strong partnerships are essential. Such collaboration enables meaningful exchanges and interactions that transcend national borders, allowing us to collectively and effectively tackle emerging challenges in a practical and beneficial manner, ultimately serving the shared national interests well into the future.

Therefore, Defense & Security 2025 is being held under the theme "The Power of Partnership". This theme is founded on mutual understanding, trust, and the shared goal of building and sustaining cooperation in the defence industry among partner nations. The event will serve as a vital mechanism for strengthening collaboration between end-users and manufacturers in the defence industry. It will also provide the Ministry of Defence, relevant government agencies, and the general public, who utilize security-related products or engage in disaster relief operations, an opportunity to study state-of-the-art defence equipment and to meet directly with industry participants. This will help create and further expand networks of cooperation for the future.

Finally, on behalf of the Office of the Permanent Secretary for Defence and as Chairman of the Organizing Committee, I would like to take this opportunity to express my sincere appreciation to the committees and subcommittees involved in organizing this event, the delegations, exhibitors, participants, and all contributors to this grand exhibition. Whether through duties carried out within the event or through external support, your contributions have been invaluable. In particular, I wish to highlight GML Exhibition (Thailand) Co., Ltd., the organizer of this event, whose proven track record across many editions has once again ensured the success of Defense & Security 2025.

A handwritten signature in blue ink, appearing to read 'T. Malakham'.

General Tharapong Malakham

Permanent Secretary for Defence

Chairman of Defense & Security 2025 Organising Committee

MESSAGE FROM

General Ukris Boontanondha
Chief of Defence Forces
Royal Thai Armed Forces

Today's security challenges are increasingly multi-dimensional and transnational, requiring effective international cooperation built on trust and mutual understanding. As threats evolve beyond national borders to regional and global scales, the Royal Thai Armed Forces must remain adaptable and agile to maintain sustainable peace, stability, and security.

The Royal Thai Armed Forces has the responsibility to prepare forces, defend the kingdom's sovereignty, and carry out functions relating to the use of military power as assigned by the Ministry of Defence. In addition to national defence, on the international stage, the Royal Thai Armed Forces has firmly and continuously contributed to peacekeeping operations with other nations under the United Nations and has provided humanitarian assistance in time of crisis to the region and elsewhere, which reinforces Thailand's commitment to the collective security and global cooperation.

Defense & Security 2025 provides significant benefits for the Royal Thai Armed Forces, both now and in the future. The exhibition underscores the importance of regional collaboration in addressing key challenges such as disaster relief, cybersecurity, counterterrorism, and strengthening of the national defence industry. With a proud legacy of bringing together multinational corporations, manufacturers, military leaders, and government officials, Defense & Security continues to be a vital platform for dialogue and partnership.

The 2025 edition offers unique opportunities for military and security professionals to explore state-of-the-art equipment and technologies, connect with leading global manufacturers, and attend seminars led by world experts in defence and internal security.

On behalf of the Royal Thai Armed Forces, I wish to convey my sincere appreciation to all delegations, exhibitors, visitors, and organizers for their efforts in making this event one of the most important defence and internal security exhibitions in the region.

General Ukris Boontanondha
Chief of Defence Forces
The Royal Thai Armed Forces

MESSAGE FROM

General Pana Claewplodtook

Chief of Army
Royal Thai Army

At present time when Thailand is facing multilayered challenges across various operational domains, including security threats, rapid technology advancement, unforeseen natural disasters and crisis. The Royal Thai Army, as nation's primary security institute, must continuously enhance its operational capabilities and combat readiness through adaptive integration of advanced technologies and modernized defense system in order to respond to all situations and tasks efficiently. "Defense and Security 2025", therefore serves as a critical platform for acquiring knowledge of defense cutting-edge innovations and facilitating the exchange of strategic information regarding military armaments equipment. Furthermore, this event strengthens collaborative partnerships within the modernized defense industry across the globe. These initiatives will address operational requirements in line with national security missions and enhance the operational capabilities of the armed forces to successfully safeguard the nation's independence, sovereignty, and national interests - thereby contributing to strengthening regional security.

On behalf of the Royal Thai Army, I would like to send goodwill to all participants and hope that "Defense and Security 2025" will achieve its objectives of supporting the defense industry and serving as a platform to showcase military technology for the mutual benefit to the armed forces of participating nations."

Pana Claewplodtook.

General Pana Claewplodtook
Chief of Army
Royal Thai Army

MESSAGE FROM

Admiral Pairote Fuangchan

Commander-in-Chief

The Royal Thai Navy

The key mission of the Royal Thai Navy is to exercise the protection of the nation's maritime sovereignty, and the enforcement of maritime laws within Thailand's maritime boundary. With a long and extended coastline which is home to many vital natural resources, such as our national gas reserves located in the Gulf of Thailand; the Royal Thai Navy is therefore tasked with a crucial role of safeguarding the nation's natural resources that are vital to the growth and prosperity of our nation, and to provide security and protection for the population of the Kingdom of Thailand.

Another important task that the Royal Thai Navy is bestowed with is the enforcement of maritime laws, for example, the prevention of illegal entry into our national waters, countering-human trafficking and drug smuggling. Moreover, the Royal Thai Navy has been recognized for her ability to provide rapid Humanitarian Assistance and Disaster Relief (HADR) responses to unforeseen circumstances occurring domestically and internationally. The Royal Thai Navy also frequently conducts joint

naval operations with allied navies, by frequently sending our personnel, ships, and aircraft to participate in joint patrols and operations in international waters.

Due to the highly volatile state of affairs and the emergence of new forms of threats that have massive potentials in undermining our maritime security, the Royal Thai Navy must continue to remain vigilant and vigorous in the development of her personnel, the constant refurbishment of her equipment, and the replacement of obsolete systems with modern ones. For this reason, this year's Defense & Security Exhibition is therefore a vital milestone for exploring new technological developments and innovation, as well as a great opportunity to build and foster strong relationships with allied nations.

On behalf of the Royal Thai Navy, I would like to thank all the participants and exhibitors for organizing this event. Additionally, I would also like to congratulate GML (Thailand) Co., Ltd. for hosting a world class.

Admiral Pairote Fuangchan

Commander-in-Chief

The Royal Thai Navy

MESSAGE FROM

Air Chief Marshal Sakesan Kantha

Commander-in-Chief

The Royal Thai Air Force

The Royal Thai Air Force is in the midst of a major transitional phase, which emphasizes the development and the upgrade of holistic capabilities under the vision of “Unbeatable Air Force”, for the purpose of strengthening potentials in national defense and safeguarding sovereignty under the complex and ever-changing security environment.

The Royal Thai Air Force has established a strategic direction known as the ‘Roadmap to an Unbeatable Air Force’ as a main guideline in strengthening air power, covering the Defense Offset Policy, research and development, and the national defense industries development. The mentioned strategy plans to act as a foundation build for capabilities augmentation, and to elevate a sustainable level of self-dependency for the Royal Thai Air Force.

As of this year, the ‘Defense & Security 2025’ platform exhibits correspondingly with the ‘Roadmap to an Unbeatable Air Force’. Showcased internationally, it is opened up for audiences to witness the cutting-edge technologies and armaments from overseas, along with enable to construct negotiations for cooperations under the Defense Offset Policy, which benefits technology transfer, increase of potentials in national defense industries, and development of other sectors. Meanwhile, it acts as an open floor for exchanging scholarly knowledge, innovation, research and development. With all these heading at one sole direction, the Royal Thai Air Force aims to stay prompt and punctual for changes, and attain true under the vision of “Unbeatable Air Force”.

On behalf of the Royal Thai Air force, I would like to express my appreciation to the exhibitors, delegates from every sector, and visitors, in making this year ‘Defense & Security 2025’ a humungous success. Thanks to you all we have achieved becoming a platform with unity, allowing Thailand’s national defense industries to pave ways towards advancement and potentials, carrying further development onwards to the next chapter.

Air Chief Marshal Sakesan Kantha

Commander-in-chief

The Royal Thai Air Force

MESSAGE FROM President of Thailand Convention & Exhibition Bureau (TCEB)

As Thailand's national agency responsible for promoting and developing the business events industry, the Thailand Convention & Exhibition Bureau (TCEB) is committed to advancing the role of MICE (Meetings, Incentives, Conferences, Exhibitions) as a key driver of economic growth. Thailand has long been a preferred destination for international business events, offering a unique blend of convenient accessibility, world-class infrastructure, professional services, rich cultural heritage and world-renowned hospitality.

TCEB is proud to fully support Defense & Security 2025, which continues to grow from strength to strength and has reached new heights this year. Recognized as one of Asia's most successful and rewarding tri-service defense and security exhibitions, conferences, and networking events, the 2025 edition is expected to welcome over 26,000 trade visitors and exhibitors from 65 countries, an achievement that underscores both the scale and global importance of this event.

Defense & Security 2025 contributes significantly to the growth of Thailand's MICE industry and reaffirms Thailand's status as Asia's trusted platform in connecting with global industry, thus, fostering up-to-date knowledge exchange, professional development and innovation. It is benefiting not only industry stakeholders but also the broader economic and social progress of the country.

On behalf of TCEB, I extend my warmest congratulations to the Ministry of Defence of Thailand and GML Exhibition (Thailand) Co., Ltd. for successfully organising this prestigious regional event. I also wish to express my appreciation to all distinguished visitors, delegations, speakers, and exhibitors for trusting Thailand as your business destination. May your time in Bangkok be both productive and rewarding, filled with new opportunities and lasting partnerships.

Mrs. Supawan Teerarat
President Thailand Convention
& Exhibition Bureau (TCEB)

10-13
Nov 2025

IMPACT, Muang Thong Thani, THAILAND

WELCOME MESSAGE FROM

Manu Leopaiprote, Chairman
GML Exhibition (Thailand) Co., Ltd.

Since its inception in 2003 as a local exhibition in Bangkok, Defense & Security has grown remarkably into one of Asia's most important and respected defense and security events. Held biennially, the exhibition has continually expanded in both scale and scope, earning recognition as a premier platform for defense and security technology, knowledge exchange, and international cooperation.

Defense & Security 2025 marks the largest edition to date, bringing together more than 580 leading defence and security manufacturers from 45 nations, along with 22 official national pavilions. This year's exhibition highlights the latest advancements in defense and security technology and provides a dynamic forum for government-to-government meetings, senior-level delegations, and high-ranking military officials to engage in meaningful dialogue. A wide range of seminars, technical presentations, and live demonstrations further enrich the program, offering participants unique opportunities to share insights and explore new partnerships.

On behalf of GML Exhibition (Thailand) Co., Ltd., the organizer of Defense & Security 2025, I wish to extend my sincere appreciation to the Ministry of Defence of Thailand, the supporting committees, participating delegations, distinguished visitors, and exhibitors for their steadfast support. May this year's exhibition continue to foster lasting cooperation and prosperity for all participants.

(Manu Leopaiprote)
Chairman
GML Exhibition (Thailand) Co., Ltd.

WELCOME MESSAGE FROM

M Gandhi, Managing Director
GML Exhibition (Thailand) Co., Ltd.

Defense & Security 2025 is a world-recognized success and one of the most important tri-service military exhibitions in the region. Since its establishment, the event has become a vital platform for defense and security cooperation, innovation, and partnership. This year, under the theme "The Power of Partnership," the exhibition highlights the importance of collaboration in addressing shared challenges. Defense & Security 2025 places special emphasis on regional cooperation and business partnerships, enabling participants to work together toward more effective responses in disaster management, cyber security, counterterrorism, and defense production.

We are especially honored to welcome thousands of high-ranking military officers, security personnel, and defense decision-makers from across the globe, with a strong presence from ASEAN nations. The gathering of over 350 official delegations, led by Ministers of Defense, Chiefs of Armed Forces, Police and Security Agencies, and other distinguished leaders, reinforces the exhibition's role as a forum for government-to-government dialogue (G2G) and strategic cooperation.

On behalf of GML Exhibition (Thailand) Co., Ltd., the organizer of Defense & Security 2025, I extend my deepest gratitude to the Ministry of Defence of Thailand, the organizing committees, our exhibitors, distinguished visitors, and official delegations for their continued trust and commitment. Your participation and support embody the true spirit of partnership, ensuring the ongoing success and relevance of this important event.

(M Gandhi)
Managing Director

Aircraft structure, cabin solution, and the space areas are the main three areas of the company. The small-medium sized drone is one of our main products, and we've done design, manufacturing and the integrate all the systems. Also, we are developing AAM structures as a project of Korea government. We have experience with design structure and analysis for AAM of Vertical Aerospace in the UK, airlines, and the military filed. We are the only and the first holder of EASA DOA and POA. With these certifications, we are providing cabin interior business, not only with design but also the testing. We have experience with airlines in Asia market and now, we are doing project with Easyjet in the USA. For the space sector, we have developed composite propellant tank for the small launch vehicle, and done cryogenic testing in-house. This tank is also can be customized.

Radio-communications planning is a critical component of all mission planning for Armed Forces. Not only is it necessary to ensure personnel have sufficient connectivity in their operating zones, but Armed Forces must also account for all types of offensive and defensive spectrum operations. Such mission planning needs to extend beyond just accurate modeling of allied networks, but needs to also be able to model electronic warfare capabilities such as detection and localization of enemy objects and signals and also model counter measures such as jamming. ATDI's HTZ Warfare is the most advanced Communications and Electronic Warfare Planning software today: -All in in radiocomms planning for Armed Forces and Security. -Models all wireless communications for Army, Navy and Air Force and all EMSO operations. -Completely self contained application built on a native GIS engine -Combines digital maps and radio propagation models to provide accurate network analysis. -Restful API

Camero-Tech, an SK Group member, is a global leader in the development and production of advanced radar-based imaging solutions. Leveraging decades of expertise and close collaboration with first responders and defense forces, the company delivers innovative technologies that transform search and rescue worldwide. Camero-Techs Xaver systems are field-proven, life-saving solutions designed from real operational needs, redefining search and rescue missions with breakthrough Through-Wall Imaging (STTW) technology. Rapid to deploy and simple to operate, they provide rescuers with real-time information on the presence, number, and precise location of survivors hidden behind walls or trapped beneath rubble. Proven in large-scale disasters and conflict zones, including Bangkok (2025), Israel (2025), Turkey (2023), and Mexico (2017), the Xaver systems have consistently guided rescue teams directly to those in need, dramatically improving mission efficiency and saving countless lives.

commcrete

TEL : 972503800072
FAX : -
EMAIL : rachel.a@commcrete.com
WEBSITE : commcrete.com

Commcrete develops and manufactures ultra-compact satellite communication solutions for critical-tactical users in defense, public safety, and commercial sectors. Its plug-and-play systems are optimized for all-weather, all-terrain operations with ultra-low SWaP (size, weight, and power) and stealthy signal profiles ideal for covert and mobile use. With up to 32 dB link budget, they deliver powerful performance in a form factor that can be carried, mounted, or integrated anywhere. Using L-Band GEO satellites, Commcrete excels in narrowband use cases like secure voice, encrypted text, asset tracking, and Blue Force Tracking. Unlike traditional SATCOM, its platform operates independently of existing satellite protocols, ground stations, or constant signal transmission (MODEMs). That means no complex setup, no bulky hardware, and no strict line-of-sight just instant, energy-efficient communication, even in harsh or hostile environments.

The Defence and Aerospace Industry Exporters Association (SSI) was established in 2011 in order to bring together the exporters/manufacturers operating in the Turkish defence and aerospace industry and to increase the export capacity of the sector. Working under the auspices of Ministry of Trade and in close cooperation with the Ministry of National Defense and the Secretariat of Defence Industries (SSB), SSI set its main goal as increasing the market share of the sector through overseas expansion of the current capacities of the Turkish defence and aerospace industry companies in a more organized manner. Being the sole Exporters Association of the sector in Turkey, SSI has an expanding base of members including the most important companies in the sector, by increasing from the initial 60 members to around 2.000 today.

Our mission is to operate at the forefront of technological innovation, delivering cutting-edge solutions that enhance the safety, security, and operational effectiveness of armed forces. Our core objectives focus on the research, development, production, and integration of advanced defence technologies, while maintaining a strong commitment to quality, innovation, and ethical responsibility.

We apply these principles primarily in the manufacture, assembly, and sale of auger packing machines for the production of artillery shells and projectiles of various calibres, as well as other products widely used in the defence industry. We have extensive expertise in the development and management of production facilities dedicated to manufacturing defence products.

In addition to these activities, our long-standing experience enables us to provide manufacturing and repair services for land force vehicles at our own production facilities.

Dong-A Special Metals Co., Ltd. recycles titanium, nickel, and other specialty metal scraps from defense, aerospace, chemical, and medical industries. We localize and supply key materials for the Fourth Industrial Revolution. Through eco-friendly dry-processing, we recycle scraps into raw materials for global steelmakers, advancing carbon neutrality and sustainability.

Titanium Cobble (Sponge Substitute)

Produced by processing titanium scrap to replace sponge. Generates less carbon emissions compared to sponge production.

Feedstock (Alloying Material)

Ready-to-use for melting, casting, and alloying. Made from verified or pre-alloyed materials, minimizing alloying steps and risks.

Ingot

Titanium and nickel-based superalloys are used in aerospace and medical industries. Produced by a high-purity process combining refining and smelting in one system, ensuring homogeneous alloys. Capable of manufacturing high-melting-point metals such as titanium, nickel, and zirconium.

DZYNE Technologies designs, develops, and manufactures autonomous defense systems that integrate hardware, software, and AI for air, land, and sea applications.

Their key focus areas include:

Airborne systems such as long-range intelligence, surveillance, and reconnaissance (ISR) platforms, expendable cargo gliders, and intelligent munitions.

Counter-UAS systems for detecting, tracking, and mitigating hostile drones, including fixed-site and vehicle-mounted solutions often referred to as dronebusters.

Advanced counter-UAS capabilities that employ PNT (Positioning, Navigation, and Timing) spoofing techniques to disrupt or degrade adversary drone navigation and control without kinetic engagement.

Autonomous software and AI integration to enable unmanned and semi-autonomous operations.

Operational support including training, flight operations, and maintenance services.

MYDEFENCE
Counter Drone Technology

At MyDefence, we specialize in next-generation solutions for detecting and neutralizing drone threats. Combining advanced radio frequency technology with rapid response capabilities, we develop tools designed to meet the challenges of modern warfare and security.

By working closely with frontline forces, we gain real-time insights into evolving drone tactics, allowing us to design systems with precision and reliability. Our solutions are built for military operations and the protection of critical infrastructure, including airports, corporate facilities, and high-security sites. Users are enabled to effectively detect and counter drone threats while maintaining mobility and operational efficiency.

We are driven by innovation, constantly adapting to stay ahead of emerging threats. Our mission is simple: to save lives and protect what matters most.

TRD SYSTEMS PTE LTD
Making Life Safer

TRD Systems Pte Ltd is a privately owned Singapore company and a leading provider of anti-drone products and solutions for law enforcement, security and military applications. TRD began as a consultancy firm in 2011 and has grown into a company with complete engineering and production capabilities. With a headcount of over 100 people, TRD's main headquarters and production facility is in Singapore, supported by a regional factory and office with a test centre in Thailand. TRD also has a wide range of partners and representatives around the world. TRD has established a joint venture in the Kingdom of Saudi Arabia as part of its local presence to bring anti-drone capability, including a local production facility, to the Middle East region.

TRD's vision is to be a world-class partner for advanced C4I and security systems, with a mission to Make Life Safer. In addition to anti-drones, TRD's portfolio includes healthcare, with a mission to Make Life Better.

A Leading B2B Marketplace for Defence Industry

Global Leader in Defence Related B2B Services

ABOUT US

Defence Industry is the pre-eminent (Business to Business) B2B marketplace that unites buyers, sellers, manufacturers and service providers globally. We strive to deliver success to our clients with cutting edge marketing and promotional campaigns for optimum market reach resulting in effective lead generations and business.

Brands who trust us

WHY WE

We are poised to be a one stop shop for all B2B product promotions associated with various industrial segments. Our deep understanding of market movements, customer perception and optimum campaign design comes clubbed with –

Salient Features

1. A vast and penetrative industrial database.
2. Dedicated teams for lead generation.
3. Custom campaign designs for optimum ROI.
4. Social Media networks with thousands of followers.
5. Dedicated team of content and copy writers.

OUR SERVICES

We are a professional B2B market place for Defence sector. Our vision entails bringing all the manufacturing entities together and offer a fair business ground globally.

To achieve our goals we have a whole gamut of service portfolio to offer to our esteemed partners –

1. Exclusive company profile with unlimited product display and technical specification sections for our partners;
2. Regular Email Blasts for product promotions;
3. Banner, Video and Content Promotions for lead generation;
4. Highly potent social media promotions by dedicated team;
5. Event promotions – for enhanced exhibitor signups;

ISOF RANGE 2026

APRIL 14-15

The USSOCOM Program Manager – SOF Lethality, in partnership with the Joint Services Small Arms Program and the Project Manager – Soldier Lethality, will conduct the International Special Operations Forces (ISOF) Range 2026, 14-15 April at the Nevada Test and Training Range to conduct hands-on market research of technologies that address lethality gaps and inform future requirements for USSOCOM components, Joint Services, International SOF community, federal law enforcement agencies, and other government organizations.

Apply to demonstrate at isofrange.com

There is an Exhibitor Registration Fee associated with this event.
