

580 Exhibiting Companies from 45 Countries

Save the Date: Asia's Premier Defense & Security Event Returns this November

Returning for its 12th edition this November, Defense & Security 2025 reaffirms Thailand's role as ASEAN's strategic hub for defense and security dialogue. Held biennially, the show has evolved into the region's most influential tri-service defense and internal security exhibition. Taking place from 10-13 November 2025 at IMPACT Exhibition & Convention Center, Bangkok, the event continues to champion its founding vision, "The Power of Partnership," by serving as a vital platform for international cooperation, technology exchange, and strategic alignment among global defense leaders.

Spanning land, air, sea, cyber, and space, the exhibition will showcase a full spectrum of next-generation capabilities: from advanced weapons, UAVs, and armored vehicles to naval and aerospace systems, cyber defense, and electronic warfare. Reflecting the evolving nature of conflict, special emphasis will be placed on space warfare and cybersecurity. The internal security segment will highlight surveillance systems, body armor, riot control, access management, and tactical gear, enabling agencies to address modern challenges. In 2025, the show will welcome leading companies from 45 countries and 28 national pavilions, each presenting their latest defense and security innovations.

Beyond the exhibition, Defense & Security 2025 offers unparalleled opportunities for dialogue, diplomacy, and high-level networking, anchored by an International Seminar addressing timely topics such as Lethal Autonomous Weapons Systems (LAWS) and governance. Complementing this, technical presentations and live demonstrations will provide in-depth discussions and real-time showcases on areas ranging from Modern Naval Warfare and Short-Range Air Defense (ShoRad) to the security aspects of space technology. To further enhance engagement, official luncheons, VIP tours, executive receptions, and G2G/G2B meetings will connect exhibitors directly with the region's most influential defense and security decision-makers, reinforcing the show's role as ASEAN's premier platform for cooperation and strategic alignment.

Message from Permanent Secretary for Defence

Royal Thai Armed Forces remain a cornerstone in safeguarding the nation's sovereignty, maintaining internal and external security, and advancing our strategic interests. Across the Army, Navy, and Air Force, we are committed to a sound organisational structure, combat readiness, sustainable operations, and continuous modernisation.

Beyond traditional defence roles, the armed forces stand ready to support civil society, whether in responding to natural disasters, combating illicit drugs, or contributing to humanitarian operations. At the heart of this mission lies a robust modernisation agenda. At present, the armed forces have undertaken comprehensive programs to upgrade critical infrastructures, adopt cutting-edge technologies, and enhance both hardware and software systems. These efforts ensure that the armed forces are equipped to face evolving threats, both conventional and asymmetrical, in an increasingly complex security environment.

In today's interconnected world, Defense & Security 2025 emerges as a vital platform to reinforce our commitment to peace through preparedness and cooperation. It embodies the show's vision on "The Power of Partnership" by promoting meaningful collaboration among allied armed forces in ASEAN and beyond, and by engaging with defence and security industries to align their innovations with our national and regional goals. This year's edition will feature high-level international conferences, expert-led seminars, and live demonstrations that highlight key focus areas including defence readiness, interoperability, cybersecurity, and responses to emerging threats.

Lastly but importantly, on behalf of the Office of the Permanent Secretary for Defence and the Chairman of the Organising Committee, I strongly encourage all personnel of Royal Thai Armed Forces, along with our wider defence and security community, to actively participate in this landmark event. Defense & Security 2025 will serve as a key exhibition in shaping the future of regional security through shared knowledge, innovation, and unity. I would like to take this opportunity to thank the organisers, the organising committees and subcommittees, the delegates, the exhibitors and the participants as well as all those involved in organising this event, whether it be in the capacity of carrying out duties within the event or providing support in various areas that helped make this exhibition an outstanding success.

P. Sangk

General Sanitchanog Sangkachantra
Permanent Secretary for Defence
Chairman of Defense & Security 2025 Organising Committee

PROGRAMME OF EVENTS

Day 1:

Monday, 10 November 2025

0900-1000	Opening Ceremony Presided over by Minister of Defence of the Kingdom of Thailand	IMPACT Challenger Hall 1	By Invitation
1000-1200	VIP Tour of Minister of Defence of the Kingdom of Thailand	IMPACT Challenger Hall 1-2	By Invitation
1000-1700	Exhibition / Courtesy Call / Technical Seminars / Demonstrations	IMPACT Challenger Hall 1-2 Technical Stage	
1200-1330	Executive Lunch hosted by Minister of Defence of the Kingdom of Thailand	Luncheon Area in Challenger Hall 2, IMPACT	By Invitation

Day 2:

Tuesday, 11 November 2025

1000-1700	Exhibition / Courtesy Call / Technical Seminars / Demonstrations	IMPACT Challenger Hall 1-2 Technical Stage	
1200-1330	Official Lunch Hosted by Commander-in-Chief of the Royal Thai Army	Luncheon Area in Challenger Hall 2, IMPACT	By Invitation
1700-1930	Networking Reception Hosted by Chief of Defence Forces, the Royal Thai Armed Forces	IMPACT Challenger Hall 1	By Invitation

Day 3:

Wednesday, 12 November 2025

0900-1230	International Seminar Organised by Ministry of Defence	Jupiter Room 12-13, IMPACT Exhibition Center	
1000-1700	Exhibition / Courtesy Call / Technical Seminars / Demonstrations	IMPACT Challenger Hall 1-2 Technical Stage	
1200-1330	Official Lunch Hosted by Commander-in-Chief of the Royal Thai Navy	Luncheon Area in Challenger Hall 2, IMPACT	By Invitation

Day 4:

Thursday, 13 November 2025

1000-1700	Exhibition / Courtesy Call / Technical Seminars / Demonstrations	IMPACT Challenger Hall 1-2 Technical Stage	
1200-1330	Official Lunch Hosted by Commander-in-Chief of the Royal Thai Air Force	Luncheon Area in Challenger Hall 2, IMPACT	By Invitation

ATTIRE:

1. For all events and activities at the exhibition venue:

- Working Uniform (Long Sleeves) for Military and Government Officials, Lounge Suite for Civilian.

2. For the Networking Reception on 11 November 2025:

- Lounge Suite or National Dress

Remarks:

1. Programme is subject to change.

2. Exhibition is opened for registered trade visitors at 11.00 hrs. on 10 November 2025. Technical Seminars and Demonstrations will be started from 13.00 hrs. onward.

3. Schedule of Technical Seminar is updated as of 9 September 2025

PRODUCT HIGHLIGHTS

GRIPEN E Demonstrator Aircraft

[P41] Saab is a leading defence and security company with an enduring mission, to help nations keep their people and society safe.

Saab designs, manufactures and maintains advanced systems in aeronautics, weapons, command and control, sensors and underwater systems

EXHIBITOR HIGHLIGHTS

[U03] ABEKING & RASMUSSEN
SCHIFFS- UND YACHTWERFT SE

AbeKing & Rasmussen (A&R) is a pioneering shipyard in Germany with high reputation for quality and innovation for naval and commercial vessels since 1907. Today the company, whose main focus lies on ship- and yachtbuilding, delivers to a critical and sophisticated clientele all over the world.

[K05] AERONAUTICS LTD

Established in 1997, Aeronautics is a world leader in designing, developing, and manufacturing Unmanned Aerial Systems (UAS) for the global defense & HLS markets.

[Q33] AIRBUS

Airbus is the largest aeronautics and space company in Europe, providing products, services and solutions for the commercial aircraft, helicopter, defence and space sectors. Drawing on over half a century of aerospace engineering expertise, Airbus products are defined by innovation.

[N36] ARGUS INFORMATION
TECHNOLOGY CO., LTD

Hope-Wish has more than 10 years in the night vision solutions area, including but not limited to:
- long/short/range night vision security cameras
- Handheld/Helmet/Weapon-mounted thermal cameras for night vision solutions.

[D25] ASELSAN

ASELSAN equips the MLGEM-5 frigates with a fully indigenous combat suite, including the CENK 3D AESA and AKREP radars for advanced detection and targeting, the GÖKDENİZ CIWS and 25 mm STOP for close-in defense, 76 mm gun control (TAKS & TAK) for main gun accuracy, ATMACA and HSAR fire-control systems for long-range strike and air defense.

[GG33] ASFAT

ASFAT was established on January 12, 2018 under the Ministry of National Defense. It has more than 30 years of experience in construction, modernization, repair and maintenance with expert workforce of 27 military factories, 10 naval shipyards.

[R11] ATDI

ATDI are specialists in electronic warfare simulation software and in real time AI powered threat detection. ATDI's HTZ Warfare has absolutely no peer competitor in the market and combines all military network planning capabilities with rapid, accurate radio propagation models built on a native GIS engine. Everything out of the box in 1 COTS software.

[M34] AXNES AS

Axnes develops and supplies highly advanced and extremely durable wireless intercom solutions for aircraft, maritime and ground vehicles. The wireless intercom solutions from Axnes are designed to perform in extreme conditions, under any circumstance anywhere on the planet.

[J20] AXON CABLE

From the earth to the sky, Axon' Cable offers interconnect solutions Radar, drones, civil aircraft, fighters, the list of applications for which Axon' Cable can provide interconnect solutions is extensive - but all have a common goal: the need for miniature and reliable components.

[Q09] BAE SYSTEMS

At BAE Systems, we provide some of the world's most advanced, technology-led defence, aerospace, and security solutions. We employ a skilled workforce of around 107,000 people in more than 40 countries. Working with customers and local partners, we develop, engineer, manufacture, and support products and systems to deliver military capability, protect national security, and keep critical information and infrastructure secure.

[JJ21] BEIJING V-GREAT
INTERNATIONAL TRADE CO., LTD.

Compatible with V-great MICH tactical helmet with FMA side rail, Size XL; Lightweight design easily to mount; Design offers a wide field of vision without compromising protective coverage; The bulletproof mandible is ergonomic and comfortable to wear; A perfect match with ballistic visor VRB002 with mandible cut; Color optional.

[L17] BERETTA DEFENSE
TECHNOLOGIES

Beretta Defense Technologies (BDT) is the strategic alliance of Beretta Holding companies engaged in supporting the Defense and Law Enforcement community through designing, manufacturing and distributing advanced weapon systems, firearms, ammunitions, optics, electro-optics, clothing and accessories.

[J09] BHE LAND SYSTEMS

BHE-LS is an Emirati and veteran-owned company at the forefront of military support services. We are dedicated to delivering leading defence solutions to our clients. Providing innovative and dependable defence solutions across the Middle East, fostering strong collaboration between government and industry to ensure mission success.

[L35] BIRD AEROSYSTEMS

BIRD Aerosystems, a global provider of innovative defense technology and solutions, protects the fleets and ground assets of governments and related agencies. The company specializes in two main business segments: Airborne Missile Protection Systems (AMPS), which protect helicopters, transport aircraft, narrow and wide-body commercial aircraft and VIP heads-of-state aircraft against ground-to-air & MANPADS.

[Q09] BLIGHTER SURVEILLANCE
SYSTEMS LTD

Blighter designs and manufactures ground-based radars for detecting land, coastal, and airborne targets. Its AI-assisted, low-power, 2D, 3D and 4D radars detect LSS threats and feature LPI waveforms. Trusted globally, Blighter has 800+ units deployed in 40+ countries & supports local manufacturing and multi-sensor integration.

[L25] BRAHMOS AEROSPACE

BrahMos Aerospace the designer, developer & producer of world-class BRAHMOS Weapon System is a Joint Venture between DRDO of India and NPOM of Russia. The 3-ton fire-&-forget missile flies at a top speed of Mach 2.8 and can carry a warhead of up to 300-kg.

EXHIBITOR HIGHLIGHTS**[K01] CAMERO**

Camero-Tech's Xaver™ systems are life-saving solutions, developed from real field requirements, that redefine search and rescue with breakthrough Through-Wall Imaging technology. Simple to operate and quick to deploy, the system provides real-time knowledge of survivors' presence, number, and location behind walls or under rubble.

[L04] CAPTURE SYSTEMS LTD

Capture Systems is a leading manufacturer for Pan Tilt- unique, precise solutions adapted upon customers request.

[I117] CCTECH CO., LTD.

Military & Commercial Technologies representative & distributor. Our focus is on the advance and innovative technology trustworthy and reliable. CCTECH is a trustworthy provider of advance technology products for military industries who seeking for quality and performance. We always seek to fulfil clients need to meet their missions.

[K19] CEIA

CEIA is a world leading manufacturing company specialized in the design, engineering and production of a complete range of Metal Detectors and Electromagnetic Inspection Devices conceived to satisfy every need in the Demining, C-IED, Security and Industrial Sectors.

**[J25] CELLEBRITE ASIA
PACIFIC PTE. LTD.**

Surface critical intelligence. Accelerate mission success. Cellebrite Insetts and Pathfinder equip defense and intelligence teams to extract, decode, and analyze encrypted, deleted, and cloud-based data delivering clarity in minutes. Insetts enables deep access and court-ready reporting; Pathfinder uses AI to uncover leads, patterns, and connections across devices and data sources.

**[D17] CHAISERI METAL &
RUBBER CO., LTD.**

Chaiseri is a Thai company specialize in Defense Land system for Armored vehicle, Tracks system, Runflat, and maintenance, upgrading service for military vehicle. We design, manufacture, recondition, upgrade military vehicle and its subsystem to meet satisfaction of the growing needs of armed forces and internal security organization.

**[H03] COGNYTE TECHNOLOGIES
ISRAEL LTD.**

Cognyte, a global leader in data processing and investigative analytics solutions, helps government agencies and other organizations eliminate the unknown and make smarter, faster decisions with Actionable Intelligence for a Safer World.

[Q17] COLT CZ GROUP

Colt CZ Group SE, together with its subsidiaries, is one of the worlds leading manufacturers of firearms and ammunition for military and law enforcement, personal defense, hunting, sport shooting and other commercial use.

[F04] COMMCRETE INC

Comcrete develops and manufactures ultra-compact satellite communication solutions optimized for critical-tactical users in the defense, public safety, and commercial sectors.

[P25] CPMIEC

China National Precision Machinery Import & Export Corporation (CPMIEC) is a nation-wide foreign trade enterprise which combines trade with industry and technology. It's a main channel authorized by the Chinese government for the import and export of hi-tech products and technology of China Aerospace.

[S25] CSSC

CSTC has been an active participant in the highly competitive global maritime market. Today, CSTC is the strongest comprehensive trading company and maritime defense products exporter in China. CSTC's professional and committed staff, together with an extensive network across the world, ensures high-quality, convenient service and support to our customers at home and abroad.

**[E13] CUMMINS DKSH
(THAILAND) LTD.**

The ISF2.8 offers advanced thermal engineering, electronic integration, and a High Pressure Common Rail fuel system. In addition, a Cummins wastegated turbocharger is used for excellent performance across rpm range and improved response through higher low-end torque.

**[E33] DEFENCE AND AEROSPACE
INDUSTRYEXPORTERS'
ASSOCIATION - SSI**

The Defence and Aerospace Industry Exporters' Association which was founded in 2011 with 60 members, continues its steady growth with the increasing number of its members that have reached to more than 2000 members in 2025 and continues its activities in a special field that produces solutions with superior capability and unique design.

**[R01] DIEHL DEFENCE
GMBH & CO. KG**

Diehl Defence, headquartered in Ueberlingen, concentrates the Diehl Group's business activities in the fields of defence and security and is a leading system house for state-of-the-art air defence systems.

[H22] DRONESHIELD

DroneShield is the world leading innovator in counter-drone solutions. We provide counter-UAS solutions that focus on Radio Frequency sensing, Artificial Intelligence (AI) and Machine Learning (ML), Sensor Fusion, Electronic Warfare, Rapid Prototyping and MIL-SPEC manufacturing.

[Q20] DSS A.S.

DSS is a renowned Czech manufacturer specializing in small arms and boasts a long tradition and expertise in the defence industry. Our offer includes light machine guns in two calibers, 5.56 x 45 mm NATO and 7.62 x 51 mm NATO, which meet the highest standards of quality and reliability.

[M35] ELANE GLOBAL

Brief Description: Since 2003, Elane Global has driven maritime innovation with AI and big data. Our SeaGuard platform integrates multi-source data and advanced analytics to deliver real-time vessel monitoring and actionable maritime risk intelligence.

[I01, H01] ELBIT SYSTEMS

PULS Precise & Universal Launching System. The PULS is a precise and universal launching system designed to meet today's fire support challenges, in terms of responsiveness, vast munition support and platform flexibility.

[R05] EMAG

Machine Tools and Production Systems from EMAG. Our Specialty As a manufacturer of CNC machine tools the EMAG Group masters all the processes involved in the soft and hard machining of metals.

[S11] EMBRAER

A global aerospace company headquartered in Brazil, Embraer has businesses in Commercial and Executive Aviation, Defense & Security, and Agricultural Aviation. The company designs, develops, manufactures and markets aircraft and systems, providing Services and Support to customer after-sales.

EXHIBITOR HIGHLIGHTS

[C01] ENVOSTAR CO., LTD.

Envostar Advance Armor offers wide range of protection solutions to enforcement sections or private sectors whom demand top quality and trust worthy products on international standards.

[G05] FIGHTLITE INDUSTRIES

FightLite® Industries is equipped with state-of-the-art CNC machining centers, 3-D solid-modeling and manufacturing CAD/CAM systems, a dedicated quality control department and an experienced manufacturing and design team that is committed to developing and manufacturing superior products for its customers.

[F09] GLENAIR, INC.

Glenair is a leading manufacturer of cutting-edge connector technologies including both Mil-Spec qualified as well as commercial circular and rectangular connectors. All interconnect designs are available in environmental, filter, hermetic, and fiber optic configurations. Interconnect technologies may be supplied as either discrete components or integrated into turnkey assemblies.

[T17] GLOCK GESMBH

GLOCK Perfection stands for our commitment to outstanding quality, state of the art technologies and customer satisfaction. GLOCK Safe Action pistols are famous for their durability, reliability and easy handling.

[I28] GLOVETEX

The fabric is durable with technology dissipates static energy and protects from electromagnetic fields, heat resistance and flame. The special properties of the fabric provide good durability that does not deteriorate easily after washing.

[Q01] HANWHA OCEAN CO., LTD.

Hanwha Ocean is driving a paradigm shift in the maritime energy industry toward an eco-friendly ship market, powered by world-class technology and a steadfast commitment to ocean safety. Hanwha Ocean is advancing sustainable growth through its cutting-edge Smart Yard, utilizing automation to ensure safety and efficiency.

[J33] INDRA

Company profile: Indra Group is a global technology and defense leader, driving innovation to make the world safer and more connected. It includes Indra, one of the main global defense, air traffic management and space companies; and Minsait, a leader in digital transformation and information technologies.

[J20] INDUSTRIEEL

Industeel is a subsidiary of ArcelorMittal group, producing special steels hot-rolled plates, ingots and formed pieces in our three mills: located in France and in Belgium. We offer a complete range of high-quality grades designed to meet the most stringent specifications in various domains like energy, transportation, mines and quarries, mechanical constructions, military land vehicles and naval application.

[J01] ISRAEL AEROSPACE INDUSTRIES (IAI)

We Provide the Technological Edge That Makes the Difference for You For seven decades, IAI has been a cornerstone of Israel's national defense, pioneering advanced solutions that safeguard nations and secure the future.

[K01] ISRAEL WEAPON INDUSTRIES (IWI)

IWI's NEGEV 7 LMG and ARAD rifles set new standards in modern firepower. Developed from real battlefield requirements and combat-proven by the IDF and leading global forces, these systems combine precision, reliability, and adaptability.

[H25] J.S.T. SERVICES CO., LTD.

J.S.T. Services Co., Ltd. is a trusted provider of advanced defense and communication solutions in Thailand. The company is the official representative of ST Engineering, offering cutting-edge drone technologies such as DroNet and its integrated systems.

[G15] JSI

JSI's flagship product, 4Sight, is a comprehensive platform that collects, connects, and enriches data from multiple sources to help manage complex data demands. With integrated AI-powered capabilities, 4Sight automates data analysis, enhances intelligence, and increases the speed and accuracy of decision-making.

[N01] KAI

As a total solution provider in aerospace, KAI has been taking leading role with successful development of various programs in almost all areas of aerospace industries such as fixed/rotary wing aircraft, aero structures and space. In addition, KAI is extending its scope to next generation combat system by developing MUMT(Manned-Unmanned Teaming).

[K21] K-BEST TECHNOLOGY INC.

Best 30 years of expertise in developing and manufacturing all kinds of RF/Microwave Modules, Subsystems, and Systems.

[H18] KCP

K.C.P. Associate Co., Ltd. is a Thai defense contractor specializing in military-grade wiring systems and electrical integration for armored platforms. With deep roots in engineering, build-to-spec manufacturing, and field support, KCP has served the Royal Thai Army for over a decade.

[T20] KIRISUN COMMUNICATION CO., LTD.

With 24+ years of expertise in wireless communications, Kirisun is a global leader in delivering cutting-edge and comprehensive range of solutions in Digital Mobile Radio (DMR), Push-To-Talk over Cellular (PTToC), and integrated radio systems, spanning its service over 100 countries.

[N19] M WAVE CO., LTD.

DUKDIK, a brand of M-Wave Group, introduces its All-Terrain Track Carrier (ATC) built for extreme mobility. With low ground pressure, high payload, and modular design, it moves over mud, snow, sand, and rock where wheeled vehicles fail. Engineered for defense, industry, and disaster relief, the ATC ensures reliable transport of personnel, supplies, and equipment in the toughest conditions.

[H21] M.C.L.P. CO., LTD.

M.C.L.P. Co., Ltd. specializes in premium anti-riot and tactical gear, built to perform when it matters most. We focus on serving end users - military, law enforcement, and security professionals - with equipment they can trust, no compromises.

[K01] MEPROLIGHT

Meprolight's TIGON, a hybrid thermal and red-dot sight, merges transparent day optics with a high-resolution uncooled thermal sensor in one lightweight, compact system. Featuring x2 digital zoom, switchable reticles, and wide FOV, it ensures effective target engagement beyond 150m in complete darkness.

[R09] MILKOR (PTY) LTD

Established in 1981 when Milkor designed and developed the first 6-shot 40 mm MGL (Multiple Grenade Launcher). In 1983, only three years after the revolutionary development, an order was placed by the South African Defence Force for the Milkor MGL named the Y2 which has been in service for over 30 years since its introduction with the armed forces.

EXHIBITOR HIGHLIGHTS

[G41] MKE

Makine ve Kimya Endstrisi (MKE) is a state-owned company and manufacturer and exporter of various types of Weapons, Ammunition, Rockets, Explosives, Chemicals, Machinery, Gas Masks, and civil products. With its experience rooted in the 15th century, is the leading company in the Turkish Defence Industry keeping modern and high technology in priority.

[M33] MYDEFENCE

At MyDefence, we specialize in next-generation solutions for detecting and neutralizing drone threats. Combining advanced radio frequency technology with rapid response capabilities, we develop tools designed to meet the challenges of modern warfare and security.

[L03] NETLINE COMMUNICATIONS
TECHNOLOGIES (NCT) LTD.

Netline develops and manufactures advanced electronic warfare systems, specializing in tactical spectrum dominance. Its DroneNet solution combines real-time detection and jamming to counter evolving drone threats, while the C-Guard family provides battle-proven protection against IEDs - with the unique ability to integrate both capabilities into a single, unified system.

[F15] NEWCON OPTIK

The Spotter LRF PRO M represents a breakthrough in tactical optics integrating a high-performance spotting scope and laser rangefinder into a single, mission-ready system. Engineered to MIL-STD-810G standards, it delivers rapid, precise acquisition of range, inclination, and azimuth data for long-distance engagements.

[D33] NUROL MAKINA

Nurol Makina is a manufacturer specialized in the design and production of tactical wheeled armored vehicles. Founded in 1976, the company is internationally recognized for its 4x4 tactical wheeled armored vehicles such as Ejder Yalcin, NMS, Ejder Kunter, NMS-L and Ejder TOMA, which offer high ballistic protection and superior mobility.

[H04] ONDAS AUTONOMOUS
SYSTEMS

Ondas Autonomous Systems (OAS) develops and deploys autonomous aerial platforms and ground robotics for defense, homeland security, and public safety. OAS delivers scalable, dual-use systems that integrate autonomous drones, AI-powered counter-UAS technologies, and data-driven operations to support mission-critical environments.

[T13] OPTICOELECTRON GROUP JSC.

Opticoelectron Group JSCo is one of the most advanced companies specialized in optomechanical, optoelectronic and laser devices and systems for defense and security, medicine, device-building, machine-building.

[I27] PLANET COMMUNICATIONS
ASIA (PUBLIC) CO., LTD

Planet Communications Asia PLC (PlanetComm) is a leading provider of secure communication and defense technology solutions in Thailand. With decades of experience, PlanetComm partners with trusted global innovators to deliver mission-critical systems for defense, government and critical infrastructure sectors.

[P01] POONGSAN

Poongsan, a World-class comprehensive ammunition company recognized for its quality and performance. Poongsan is the sole domestic ammunition manufacturer that supplies a wide range of ammunition from small to large caliber, ranging from 5.56mm cartridges to 155mm projectiles for howitzers.

[F16] PRATT & WHITNEY CANADA

We are a global leader in propulsion systems, powering the most advanced aircraft in the world, and we are shaping the future of aviation. Our engines help connect people, grow economies and defend freedom. Our customers depend on us to get where they're going and back again.

[K20] QUANTUM SYSTEMS

Quantum-Systems Pty Ltd, based in Brisbane, Australia, is a leading provider of advanced aerial intelligence solutions, delivering cutting-edge uncrewed systems purpose-built for frontline defence forces across the APAC region.

[FO3] RAPID IMAGING SOLUTIONS

RapidIR-12 Pod | The RapidIR-Pod is the simplest and most cost efficient way to enhance your airborne surveillance capabilities. Clamp on, power up, and you're ready to go! The system requires 28VDC power, ethernet, and GPS signal to operate.

[I42] REUTECH (PTY) LTD.

Reutech, a company within Reunert Applied Electronics, is a group of companies that develops, manufactures, and supports high-technology equipment for various industries worldwide, with a primary focus on the defence sector. The South African company supplies customers with advanced OEM products and services across the land, air and sea domains, as well as the industrial and mining sectors.

[K25] SARIO (SLOVAK INVESTMENT
AND TRADE DEVELOPMENT AGENCY)

The mission of the Slovak Investment and Trade Development Agency is to accelerate the investment, export and innovation potential of the Slovak Republic with the intention of turning the country into a technology center attractive to foreign investors, experts and potential business partners.

[G25] SARSILMAZ SILAH SAN. A.S.

SARSILMAZ as the leading private company of Trkiye and the major official pistol supplier to the Turkish Armed Forces and Turkish Police, is producing top of the line pistols, shotguns, submachine guns, assault rifles and machine guns for 80+ countries, thanks to continuous investment in R&D and growing product lines.

[U14] SEA

SEA delivers leading defence technology which contributes to the protection of people, infrastructure, and security worldwide. We prioritise mission readiness, cost-efficiency, and adaptability, modernising legacy systems to meet evolving naval demands.

[R12] SELLMARK (THAILAND) LIMITED

Sellmark Corporation is a leading innovator in the outdoor industry, dedicated to providing high-quality products for shooting, hunting, outdoor recreation, and tactical applications. Headquartered in Mansfield, Texas, Sellmark develops and manufactures top-tier brands that include Sightmark, Inforce, KJI, Dark30, BulletSafe, Pulsar and others.

[K35] SENTRYCS

Sentrycs is a technology leader in counter-drone solutions, supported by innovative Protocol Manipulation, often referred to as Cyber over RF technology (CoRF).

[N20] SHANGHAI HERMESYS
NETWORK TECHNOLOGY CO. LTD.

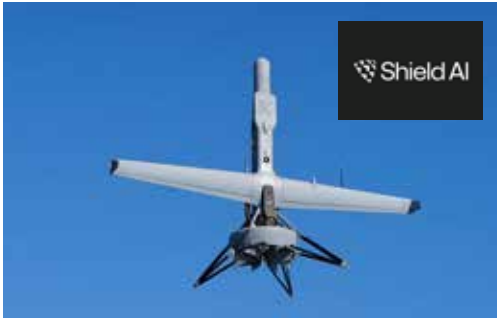

Hermesys was founded in London and is a frontier technology company focused on the military and security sector. The company develops and provides an advanced multispectral surveillance camera that integrates visible light, thermal imaging, and infrared laser into one system.

[N33] SHENZHEN SINOSUN
TECHNOLOGY CO.,LTD.

Leading Manufacturer of Wireless Data Transmission Wireless Broadband/Narrowband MESH (Centerless, MP2MP, Dynamic Routing/Multi-hop Relay, Network & Serial & Voice) HD Video & Data Link/ Industrial Wireless Network (P2P/P2MP/MP2MP, Network & Serial & Voice)

EXHIBITOR HIGHLIGHTS

[E01] SHIELD AI

Founded in 2015, Shield AI is a defense technology company committed to protecting service members and civilians with intelligent, autonomous systems.

[E05] SILVUS TECHNOLOGIES INC.
/ CRFS

Silvus Technologies Inc. designs and manufactures the StreamCaster series of high-bandwidth tactical MIMO MANET data mesh radios. StreamCaster radios are engineered to provide superior performance in all key functional areas: high data throughput up to 100 Mbps, long link distance, large mesh scaling, multiple relay, IP data reliability, link robustness, and electronic warfare resiliency.

[JJ19] SIRI

We know how vital military bases are to national security. With Siri's maintenance solutions, we strengthen base infrastructure — creating reliable environments where defense forces can operate with confidence and stability

[K01] SK GROUP

IWI's Anti-Drone System (ARBEL) targets one of today's most pressing battlefield challenges: the growing threat of small, weaponized drones. Integrated directly into standard AR-15 rifles, the system requires no external equipment or retraining, providing the soldier with a truly mission-ready solution.

[F08] SMITH & WESSON

Smith & Wesson Brands, Inc. (NASDAQ Global Select: SBWI) is a U.S. based leader in firearm manufacturing and design, delivering a broad portfolio of quality handgun, long gun, and suppressor product to the global consumer and professional markets. The company also provides manufacturing services including forging, machining, and precision plastic injection molding services.

[U25] SSE

The P2 Tiger is PT SSE's most advanced armored vehicle. A modern, powerful 4x4 APC, it has been developed specifically to meet demands from the Army, and develop PT SSE's range for other markets. The P2 Tiger variant can be upgrade for another mission and fit to user requirement.

[H33] STC

Company Products: Radioelectronic equipment, Unmanned aircraft systems Radiotechnical monitoring Development and production of communication equipment and communication security control systems.

[E10] STONE LINK CO., LTD.

StoneLink drives innovation through AI platforms, embedded systems, and secure communication technologies. Known for delivering high-value solutions across government, defense, and enterprise sectors, the company combines customer focus with technological expertise.

[N40-2] SUZHOU SHENLONG NEW
MATERIAL TECHNOLOGY CO.,LTD

Since 2009, SLXCL has specialized in the R&D, production, and sales of innovative non-ferrous metal composite materials, providing technical services for intelligent manufacturing. Products exported to over 30 countries.

[D09] SYSTRONICS CO., LTD.

JOUAV CW-15 is a fixed-wing VTOL UAV designed for aerial survey and mapping. It can fly up to 150 minutes, cover long distances, and carry various payloads such as cameras and LiDAR. Its VTOL capability allows it to take off and land vertically without a runway, making it ideal for large-area mapping, inspection, and professional surveying.

[E06] TEXTRON AVIATION DEFENSE

When military customers need airborne solutions for their critical missions, they turn to the manufacturer of the worlds leading military flight trainer, the Beechcraft T-6 Texan II as well as the high performance, low risk, multi-mission Beechcraft AT-6E Wolverine and the open architecture Textron Scorpion jet Textron Aviation Defense delivers unparalleled low acquisition, operating and training costs, all backed by the most capable global service network.

[H33] TRADESNABEXPORT

The Kerber IMS is designed to detect trace quantities of explosives and drugs in the air around controlled objects, on the surface of different objects, on fingers and clothes.

[M09] TRD SYSTEMS PTE LTD

TRD Systems Pte Ltd is a privately owned Singapore company and a leading provider of anti-drone products and solutions for law enforcement, security and military applications. TRD began as a consultancy firm in 2011 and has grown into a company with complete engineering and production capabilities.

[E07] TRIJICON

The Trijicon RMR® HD is an innovative red dot pistol optic specifically designed for the evolving needs of Law Enforcement and the Military. Built on the foundation of the Trijicon RMR® Adjustable LED model, the RMR HD features the same patented housing shape made from forged aluminum, robust electronic system, and quality lenses.

[F07] U.S. ORDNANCE INC.

For more than 25 years, U.S. Ordnance has specialized in military machine guns, all of which we design, develop, manufacture, and test with precision and superb craftsmanship to ensure the utmost quality and reliability.

[Q09] UK PAVILION

The UK Government plays a role in empowering UK industries to expand by facilitating the export of world-class products through strategic partnerships and sustained diplomatic engagement with local governments. The UK Government strengthens export capabilities to elevate defence and security products.

[EE09] VALOR STRATEGIC CO.,LTD

We are an importer and distributor of world-class military apparel and tactical equipment, sourced from leading international manufacturers. Our mission is to support the operational requirements of government agencies and field operators by providing reliable, professional-grade gear.

[U17] V-UAV CO., LTD.

V-UAV CO., LTD. is a Hi-tech manufacturer specialized in R&D and manufacturing of UAV payload gimbal cameras ,Unmanned Aerial Vehicle (UAV), and UAV accessories, located in shenzhen, China.

[N34] XI'AN BRILLIANCE
OPTOELECTRONIC CO.,LTD

Xi'an Brilliance Optoelectronic Technology Co., Ltd. is mainly engaged in the research and production of advanced optical products. It is a designated manufacturer of various types of sights for rockets, artillery, and guns.

[P09] YEONHAB PRECISION

VIC-7DK is installed inside the combat vehicles, such as tanks, armored vehicles, and self-propelled artillery, and used for internal communication, wireless communication, telecommunication, and data communication between crews for command and control
