# SHOW PREVIEW

## 480 Exhibiting Companies from 47 Countries!

Mark your calendar, Asian's Defense & Security Event of the Year Opens this November.

Defense & Security 2023 is the Leading Tri-Service defense and internal security exhibition, conference and networking event, set for an opening day on 6-9 November 2023 at IMPACT Exhibition Centre, Bangkok, Thailand. All the preparations are now ready to welcome over 480 exhibitors and 23,000 professionals in the defense and security industry. In this edition, there will also be 25 major national pavilions in attendance including Israel, Singapore, Thailand, India, South Africa, Japan, UK, Germany, US, Italy, France, Korea, China, Sweden, Canada Turkey and many more.

This year's show will be offered under the concept of 'The Power of Partnership'. All the programs and activities during the show days have been designed to build on relationships that encourage developing partnerships at all levels. The show has utilized its rich history of partnering with multinational corporations and manufacturers in the defense and internal security industry. It has always provided outstanding opportunities to network, exchange knowledge, and initiate long-term associations based on mutual understanding, trust, and the needs of Armed Forces in the region and related government agencies. Defense & Security 2023 will be the top platform and regional central meeting point to build relations between defense and security manufacturers and professionals in the industry from across the globe.

With full support from the Ministry of Defence, Thailand and Armed Forces, Defense & Security 2023 will host over 350 official delegations, including Ministers of Defence from around the world, Chiefs of Armed Forces for Army, Navy & Air Force, Police, Security Agencies and other high-ranking officials from Thailand and elsewhere. It will also be the platform to promote the country's development of the domestic defence industry to the world. The aim is to reduce the country's dependence on imports, promote technology transfer; partnership, research & development and strengthen national security.

There will be exhibits and showcases of the latest cutting-edge technologies from leading defence and security companies from 47 countries including weapons systems, launchers, missiles, tanks, guided weapons, military vehicles, aircrafts, fighter jets, marine vessels, submarines, satellites, UAVs, telecom, and electronic defence equipment. This will also include cyber security and space technology, plus related equipment such as, EOD, handguns, surveillance equipment, counter surveillance, body armour vests, CCTV, mobile jammers, personal protection, and electronic security devices.

Running in conjunction are important seminars, technical presentations and live demonstrations taking place throughout the event. Important topics related to future warfare trends, issues, and technologies will be discussed and shared by some of the leading experts and specialists in the field. One highlight is the international seminar on "AI: The New Player in Cyber Security" which covers the areas on the security of the Military's information and important issues such as protecting data, network, capabilities, detection, identification and response to attacks. These issues will be discussed by a panel representing leading experts from major countries.

### Message from the Permanent Secretary for Defence

Defense & Security 2023, an exhibition showcasing military and security equipment and technologies at an international level, continues its debut and will mark its 11th edition anniversary this year. The event is widely recognised in the international defence industry, and is regarded as one of the most distinguished defence exhibitions in the region. The event continues to provide excellent opportunities for world class manufacturers from more than 40 countries to meet with officials and end users from relevant security agencies in the region as well as defence industry representatives from other countries to share knowledge and discuss the latest equipment and technological innovations. It is also anticipated that the exhibition will be one of the mechanisms to enhance cooperation in the field of defence industry amongst participation countries.

Defense & Security 2023 will take place in Bangkok during 6-9 November 2023. Participants from 350 official delegations representing more than 32 countries, along with 23,000 professional military and security personnel from 65 countries are expected to attend this biennial event.

Within the event, participants will be able to attend international conferences, seminars and technical demonstrations from world leading experts in their respective fields. These activities will be of great benefit to those in the Armed Forces and other security agencies to gain hands-on experience with these equipment. Therefore, I strongly encourage military, police, law enforcement personnel, experts from educational institutions, and those involved in the field of security and safety, both from private and public sectors, to attend this event.

On behalf of the Chairman of the Organising Committee of Defense & Security 2023, I would like to thank the committee, the sub-committee, and those involved in organising the exhibition for their efforts in making Defense & Security 2023 a successful event once again.
